Green Diwali

Celebrate Responsibly

An Initiative for Cleaner Air and Brighter Celebrations

★ Why it Matters ★

Every Diwali, air quality across many Indian cities dips into the 'Very Poor' to 'Severe' category, as per Central Pollution Control Board's Air Quality Index data. Poor air quality affects everyone especially children, the elderly, and those with respiratory issues.

★ What are Green Crackers? ★

'Green Crackers' are scientifically designed by CSIR–NEERI to reduce air pollution. They are not pollution free, but they are a cleaner alternative to traditional firecrackers.

- Free from toxic chemicals like barium nitrate, arsenic, lithium, and mercury
- Emit 30%–80% less particulate matter (PM2.5)
- Release water vapour and dust suppressants to trap pollutants
- Produce less noise (below 120 decibels)
- Carry a Green logo and QR code for authenticity

★ Air Quality Index (AQI) - A Measure of Our Festival's Impact ★

AQI Level	Category	Health Impact
0–50	Good	Minimal impact
51–100	Satisfactory	Acceptable air quality
101–200	Moderate	Mild breathing discomfort
201–300	Poor	Harmful for sensitive groups
301–400	Very Poor	Respiratory illness on prolonged exposure
401–500	Severe	Serious health effects

Let's Make This a Truly Green Diwali!

"A cleaner celebration today
means a healthier tomorrow."

ECO FRIENDLY DIWALI

NO Crackers

Let's Celebrate
A Pollution-Free
Diwali
